Terms, \$2.00 a day.

J. B. SANGUINETTI, - Prop.

To Build Larger Destroyers.

Plans and specifications have recently been completed by the navy department for five new torpedo-boat destroyers authorized by the last congress. These new torpedo-boat destroyers will be of about twenty-eight knots speed and 700 tons displacement. The plans call for vessels considerably larger than those of similar type now in service. The largest of the present destroyers displaces but 43 tons, and is 248 feet long. Bidders will be given the privilege of submitting estimates on boats with oil-burning apparatus for generating steam, reciprocating and turbine steam engines, and internal combustion engines. These items were never before included in bids for boats of this class, but owing to the successful results from oil-burning engines it is probable that within the near future all the new vessels will be equipped with such apparatus.

Giant care is being taken, by the navy department to send out circulars and other information concerning destroyers and new battleships likely to such concerns as have the facilities for filling contracts for the vessels if awarded to them. The secrecy is in accordance with Secretary Metcalf's recent orders, and is maintained for the purpose of preventing detailed information of new naval construction falling into the hands of foreign governments.—Technical World Magazine.

Depot Square, Barre, Vt.

A WELL-ADVERTISED SAVINGS BANK.

BANK.

A large list of depositors, well scattered over its legitimate territory, is one of the best advertising mediums a Savings Bank can have. Such being the case, the Hyde Park Savings Bank must be well advertised in the State of Vermont. Read what the Lyndonville Union Journal says:

Ex-Gov. C. S. Page takes about as much pride in the growth and success of the Lamoille County Savings Bank as he does in the growth and success of his calkskin and hide business. Gov. Page is the president of this bank. It was started with the idea of not loaning a dollar outside of Vermont and this principle has been strictly followed. The bank is successful financially because the people have confidence in the business ability and integrity of the man at the head of it. If this were not so the bank would not have depositors from practically every town in the state.

This Bank pays 4 per cent. compounded semi annually on deposits of \$100 or more, remaining in the bank one full year.

The Rev. and Mrs. F. L. Bulkard have returned home from Boston, where Mr. Bulkard was recently released from custody, and it is expected that Mr. Bulkard will go to the Adirondacks for a much needed rest.

Mrs. W. V. Bryan of Waterbury is having serious trouble with her teeth, and it is feared that the left side of her upper jaw bone is diseased, the trouble being the result of an ulcerated tooth which was pulled several years ago.

The veterans at the soldiers' home at Bennington have provided a corral and sleeping quarters for the fawn captured last spring in Rutland. It is expected that the little deer will be large enough in the spring to place in the large enclosure with other pet deer.

The Methodist Episcopal Church South has sent Miss Enid Thomas of Temple, Tex., to Guadalajara, Mexico, to work in its mission school at that place.

Mr. George Stein of St. Louis, who is the mother of seven girls and six sons, says she would like to have more children if it were not for the difficulty of finding names for them.

To train every horse on her estate to know her and her son is the feat that has been accomplished by Mrs. Alfred G. Vanderbilt, the mistress of Oakland farm, at Portsmouth, near Newport.

Mrs. Richard B. Chew of Washington, who will have a share in the \$90,000 Baron Springer estate, is the originator of the Teddy bear. She is a native of Kentucky, graduate of law and an accomplished woman.

Princess Kawananakoa, a native born Hawaiian, but half white, is one of the most beautiful women in Honolulu. She is a fine pianist, is described as charming as a hostess and is noted for the taste and elegance of her costumes.

Mrs. Mary Grace Quackenbush, a member of the New York bar, has been engaged by Attorney General Bonaparte to act as special assistant in his campaign against the trusts. She is said to be a very capable lawyer.

Jane Nalche, daughter of the Apache war chief, has had her second "coming out dance." She had rheumatism at her first dance and was not active and spry. She selected as her partner in the dance the richest man of her tribe, which is equivalent in Apache to a marriage.

Atlanta is planning to issue bonds for a new courthouse and a city hall to cost \$200,000.

Fifty per cent of Missouri's total revenue and 25 per cent of the taxes on property of various kinds are paid by the city of St. Louis.

Many persons in New York city evidently think that business done in their proper name is not so well, for there are in Broadway and Sixth Avenue forty-seven signs that give fictitious names of proprietors of stores.

Electric clocks, regulated from a central station, are being installed in various prominent positions throughout Vienna. In most instances they are fixed on the fall electric light mast at the intersections of the principal streets. Each clock has four dials, which have no figures for the hours, but instead black squares for the III, VI, IX and XII and black strokes for the intermediate hours.

In 300 balloon ascents there is an average one fatal accident.

In some London hotels the waiters receive as much as \$2,500 a year in tips.

The sand dunes of the Lincolnshire (England) coast are being steadily blown inland, and much valuable land is thus rendered useless.

A Musco (Ind.) farmer, arrested on a charge of intoxication, was allowed by the magistrate to be his own judge. He fined himself \$10 and paid it without taking an appeal.

In accordance with an ancient custom dating from the time of Frederick the Great any officer in the German army who falls from his horse at a review is bound to offer a banquet to his brother officers in the regiment.

Films are exceedingly hard substances—so hard that when we wish to be emphatic we sometimes say that a thing is as hard as flint. Yet all the flints in the world are supposed to have been formed from soft sponges, for by examining small pieces of flint under a microscope the texture of the sponge is often clearly visible.

May the Lord help you make Rocklen's Savile known to all," writes J. G. Jenkins of Chapel Hill, N. C. It quickly took the pain out of a felon's heart and cured it in a wonderfully short time. Best on earth for sores, burns and wounds.

James Hatch of the upholsterers' union took the floor and seconded the Independence League. The Independent Labor party was formed in good faith last year, and believed then in Roast as the ideal man to support. "We thought he was the Moses of the labor movement," he said, "but he has turned out the veriest Judas."

The gathering at Cooper Union on Thursday night was a protest from all labor and showed that neither Hearst nor any other man has the labor vote in his pocket. Hearst represents no principles and simply desires to dominate politics in order to boost himself. Next Tuesday he will be the deadest thing on earth."

A Significant Prayer.
